github.com/Lulisderoo20

Full Stack Developer with a background in marketing and customer and employee experience, which helped me learn to lead and motivate a team, reach customers, eliminate any limit in terms of marketing, overcome my human values, gain charisma and fall in love every day more with the service to my team. Specialized in Back-end. Knowledge in agile methodologies, GIT, data structure, algorithms, and CSS frameworks. Experience in Front End and Back End development with React.js and Node.js. With good conflict resolution, motivation on a personal level and to third parties, interest in new tools and frameworks, interest in respect between human beings, human values, and a lot of enthusiasm to be part of a team in the technology industry. English level: C1 (Advanced).

PROJECTS

Full Stack Web Developer - MR Properties June 2023

- July 2023

Academic experience. Henry Bootcamp

Page developed for a real estate agency with the aim of facilitating the sale of its properties both for its clients and for the real estate. This project was developed as a team with the students of the Henry Academy as a final project of the bootcamp.
